420 GIFT GIVING IDEAS

A beautiful collaboration between storyteller David Malmo-Levine and artist Bob High - Vansterdam Comix features over a decade of work encompassing beautiful stories, detailed illustrations, tales of Vancouver Cannabis activism and pot history. This 420 paged bright and bold book, is dripping

WEEDS®

with hilarious and poignant tales, featuring prominent figures in the Vancouver Cannabis community.

Last decade, the pages that were to be Vansterdam Comix were destroyed in a fire. One singular page escaped the fiery fate and for the second time, Malmo and Bob High undertook the project of creating a comic to stand with the history books.

Page 244 spills the beginnings of Don Briere and Carol Gwilt's historical story of cannabis activism. The stories illuminate the adversity, the strength and determination demonstrated by Don and Carol. The pages weave colourful depictions of historical moments between our two fearless leaders. Beautiful illustrations capture the time in history between their first meeting, to the moment they opened their first shop together, to Carol using her Jedi mind powers to sneak into Don's hospital room.

Malmo's creative imagination narrates each tale with a smashing sense of humour, while High's mastery lies in bringing the West Coast pot activism into colour. Author David Malmo-Levine has been published in Cannabis Culture, High Times and The Pot Book. Illustrator Bob High is a Vancouver based artist.

SISTERS CBD

Give the Gift of Health

There are those times during the Holiday season that make you want to take a dose of CBD but taking a few drops of tincture are not really your thing. That is where Sisters CBD gummies come in!

Multiple delicious flavours like sweet gummies or sour gummies and a vegan option too.

This is a product we can rave and rave about but until you try for yourself and really see the difference that dosing with great gummies makes, you will never know!

Have a Happier Holiday with Sisters CBD

www.TwistedSistersCBD.ca

All we can say is absolutely WOW! Sisters knock it out of the park with a high quality, whole plant approach, to full spectrum CBD tincture.

Very impressed with the overall effect and top shelf packaging - and a what a nice taste too!

If you are looking for high quality CBD products this holiday season why don't you check out Sisters CBD for all your cbd needs at

www.TwistedSistersCBD.ca

Over a week trial, we found the Sisters Line of CBD Skin Therapy to be effective on both dry skin and sore hands, bringing harsh hands back to life over a few days of application.

Love the concept of CBD self care so these products really appealed to us on that level. It felt like we were spoiling our skin after each application.

The result? Healthier and radiant skin!
Pain be gone!
Pain Destroyer does exactly what it claims to do - and we couldn't be happier about that!

Sister's CBD makes an amazing Tattoo Aftercare product that not only heals but leaves the tattoo looking bright and crisp.

A happy holiday for the pet in your life with CBD Infused treats like Sisters CBD Beef Tendersticks.

Intent glass came from the sands of Crescent Beach and grew up dipping his toes in various art puddles..whether it was Graffiti or freestyling , he was always intrigued with different types of artistic expression.

Once he discovered glass in 2010 he quickly realized that this medium was indeed his favorite type of gravy.

He developed a funky organic style with easily recognizable trademarks such as his chipstack weave patterns and whimsical sea creatures. Apart from that he really enjoys crushing out unique headies with a very oldschool feel to them.

For more information email intentglassworks@gmail.com

He hopes to be blowing glass well into his senior years, in a little shop out in the middle of no where with his 50 rescue dogs and wife (who wrote this bio :p)

Photo number 1: This piece incorporates the first pattern work that he calls psytek. He uses different coloured glass chips woven together then gently wiggled to create a funky psychedelic confetti like design. The mushroom cluster marble was made by another artist: cr8 glass.

Photo number 2: This tube incorporates the chipstack patterns he enjoys doing.

Photo number 3: These ammonite creatures are created using glass carving techniques using heat, a stainless steel and a steady hand.

Photo number 4: These seahorse sherlocks are a signature design that can be found across Canada.

For more information email intentglassworks@gmail.com

Photo by www.instagram.com/420series

Photo number 5: His organic leaf steez is another recognizable trademark he rocks, he also makes spoons, carb caps and other items this style.

Photo number 6: This piece is a clear and true example of the organic funky freestyle essence of his work usually starting with a strange mouthpiece and no plan and hopefully ending up with something of this caliber.
